Subject: Letter of Recommendation

To whom it may concern:

We have had the pleasure of working with Bid Genius software for several months now and continue to be impressed with the program. It has demonstrated incredible efficiency in managing the bidding process and helped in reducing the time spent in distributing and collecting information on upcoming projects.

Chirag Thakkar has always been responsive to our needs and has helped us numerous times as we customize our needs with the software.

I am happy to recommend Bid Genius software to any contractor looking for software to aid in managing the bidding process and project database.

Sincerely,

Carol Rogai
